

Design Team Based Curricula

Issues

- Assignments
- Faculty knowledge
- Content
 - Academic: amount, when/where, importance or critical relevance
 - Team: amount, when/where
- How to make it a “core value” that is supported (from the beginning) and advanced throughout the program?
- Assessment (ss; future employers; faculty; various clients)
- Available resources
- Team- Size, Length, collaboration tools, composition/demographic, virtual & face-to-face
- How can curriculum support the teams? And faculty?

Define: What is “Team-Based Curriculum? e.g. who are the customers?

Measure: How do we measure?

Analyze: What are the alternative approaches? e.g.
Grades
Collaboration tools
Team Selection: how composed, length

Improve & Implement & Sustain: How?

Control: How do we maintain sustainability?
